

P016. HOUSEHOLDS BY AGE OF HOUSEHOLDER BY HOUSEHOLD TYPE (INCLUDING LIVING ALONE) BY PRESENCE OF OWN CHILDREN - Universe: HOUSEHOLDS

Data Set: 2002 American Community Survey Summary Tables

Survey: American Community Survey

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	225,474	221,333	229,616
Householder 15 to 64 years:	201,696	196,817	206,575
Family households:	147,125	141,419	152,831
Married-couple family:	113,252	108,837	117,667
With own children under 18 years	60,536	56,568	64,504
No own children under 18 years	52,716	50,142	55,290
Other family:	33,873	30,862	36,884
Male householder, no wife present:	12,441	10,535	14,347
With own children under 18 years	7,897	6,476	9,318
No own children under 18 years	4,544	3,153	5,935
Female householder, no husband present:	21,432	19,307	23,557
With own children under 18 years	17,810	15,599	20,021
No own children under 18 years	3,622	2,538	4,706
Nonfamily households:	54,571	51,553	57,589
Householder living alone	41,003	38,205	43,801
Householder not living alone	13,568	11,543	15,593
Householder 65 years and over:	23,778	22,191	25,365
Family households:	13,901	11,771	16,031
Married-couple family:	10,988	9,343	12,633
With own children under 18 years	0	0	287
No own children under 18 years	10,988	9,343	12,633
Other family:	2,913	2,118	3,708
Male householder, no wife present:	516	229	803
With own children under 18 years	0	0	287
No own children under 18 years	516	229	803
Female householder, no husband present:	2,397	1,638	3,156
With own children under 18 years	188	0	436
No own children under 18 years	2,209	1,475	2,943
Nonfamily households:	9,877	7,942	11,812
Householder living alone	9,487	7,566	11,408
Householder not living alone	390	164	616

## Notes

The 2002 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

The number of householders does not necessarily equal the number of households because of differences in the weighting schemes for the population and occupied housing units.

Click on the table title to access subject characteristics and code lists related to this table.

- 1. An \*\*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard
- error and thus the lower and upper bounds. A statistical test is not appropriate.

  2. An "\*\*" entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
- 3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
- 4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution. 5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
- 6. An "\*\*\*" entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
- 7. An '\*\*\*\*\*' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
