

P037. CITIZENSHIP STATUS - Universe: TOTAL POPULATION

Data Set: [2002 American Community Survey Summary Tables](#)

Survey: American Community Survey

NOTE: Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	624,252	*****	*****
Citizen, born in the United States	576,911	571,252	582,571
Citizen, born in Puerto Rico or U.S. Island Areas	1,954	1,278	2,631
Citizen, born abroad of American parent(s)	11,473	7,723	15,223
Citizen, by naturalization	16,952	15,058	18,846
Not a U.S. citizen	16,962	13,789	20,135

Notes

The 2002 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Click on the table title to access subject characteristics and code lists related to this table.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '***' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '*****' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
