

**P041. RESIDENCE 1 YEAR AGO FOR THE POPULATION 1 YEAR AND OVER--STATE AND COUNTY LEVEL - Universe: POPULATION 1 YEAR AND OVER**

Data Set: [2002 American Community Survey Summary Tables](#)

Survey: American Community Survey

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	615,236	613,926	616,546
Same house 1 year ago	502,955	493,405	512,505
Different house in United States 1 year ago:	108,889	99,636	118,142
Same county	66,011	60,201	71,821
Different county:	42,878	35,212	50,544
Same state	13,261	9,882	16,640
Different state:	29,617	24,094	35,140
Northeast	1,020	337	1,703
Midwest	4,310	2,376	6,244
South	8,268	5,876	10,661
West	16,019	11,998	20,040
Abroad 1 year ago:	3,392	2,452	4,333
Puerto Rico	0	0	287
U.S. Island Areas	164	161	167
Foreign country	3,228	2,286	4,170

**Notes**

The 2002 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Click on the table title to access subject characteristics and code lists related to this table.

1. An '\*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '\*\*\*' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '\*\*\*\*' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '\*\*\*\*\*' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
