

P062. PRESENCE OF OWN CHILDREN UNDER 18 YEARS BY AGE OF OWN CHILDREN UNDER 18 YEARS BY EMPLOYMENT STATUS FOR FEMALES 16 YEARS AND OVER - Universe: FEMALES 16 YEARS AND OVER

Data Set: [2002 American Community Survey Summary Tables](#)

Survey: American Community Survey

NOTE: Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	223,311	221,098	225,524
With own children under 18 years:	80,435	76,843	84,027
Under 6 years only:	16,117	14,152	18,082
In labor force:	10,262	8,688	11,836
Employed or in Armed Forces	8,601	7,210	9,992
Unemployed	1,661	818	2,504
Not in labor force	5,855	4,563	7,147
Under 6 years and 6 to 17 years:	16,653	14,932	18,374
In labor force:	10,681	8,988	12,374
Employed or in Armed Forces	8,833	7,399	10,267
Unemployed	1,848	937	2,759
Not in labor force	5,972	4,720	7,224
6 to 17 years only:	47,665	44,809	50,521
In labor force:	38,307	35,547	41,067
Employed or in Armed Forces	35,775	33,069	38,481
Unemployed	2,532	1,964	3,100
Not in labor force	9,358	7,462	11,254
No own children under 18 years:	142,876	139,442	146,310
In labor force:	88,211	85,097	91,325
Employed or in Armed Forces	81,066	77,835	84,297
Unemployed	7,145	5,716	8,574
Not in labor force	54,665	51,921	57,409

Notes

The 2002 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection.

Click on the table title to access subject characteristics and code lists related to this table.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '***' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '****' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
