

[P103. MEDIAN FAMILY INCOME IN THE PAST 12 MONTHS \(IN 2002 INFLATION-ADJUSTED DOLLARS\) BY FAMILY TYPE BY PRESENCE OF OWN CHILDREN UNDER 18 YEARS - Universe: FAMILIES](#)

Data Set: [2002 American Community Survey Summary Tables](#)

Survey: American Community Survey

NOTE: Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

	Alaska		
	Estimate	Lower Bound	Upper Bound
Median family income in the past 12 months (in 2002 inflation-adjusted dollars) --			
Total	65,745	62,737	68,753
Married-couple family --			
Total	73,942	70,800	77,084
With own children under 18 years	72,992	69,588	76,396
No own children under 18 years	74,862	71,260	78,464
Other family --			
Total	37,111	34,570	39,652
Male householder, no wife present --			
Total	48,732	37,401	60,063
With own children under 18 years	40,149	34,697	45,601
No own children under 18 years	56,458	42,699	70,217
Female householder, no husband present --			
Total	33,264	29,208	37,320
With own children under 18 years	27,744	22,548	32,940
No own children under 18 years	57,094	43,717	70,471

Notes

The 2002 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Click on the table title to access subject characteristics and code lists related to this table.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '***' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '****' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
