P105. AGGREGATE FAMILY INCOME IN THE PAST 12 MONTHS (IN 2002 INFLATION-ADJUSTED DOLLARS) BY FAMILY TYPE BY PRESENCE OF OWN CHILDREN UNDER 18 YEARS - Universe: FAMILIES
Data Set: 2002 American Community Survey Summary Tables
Survey: American Community Survey

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

	Alaska		
	Estimate	Lower Bound	Upper Bound
Aggregate family income in the past 12 months (in 2002 inflation-adjusted dollars):	12,117,161,418	11,224,146,115	13,010,176,721
Married-couple family:	10,430,680,198	9,670,597,600	11,190,762,796
With own children under 18 years	4,977,857,849	4,509,635,587	5,446,080,111
No own children under 18 years	5,452,822,349	5,058,937,035	5,846,707,663
Other family:	1,686,481,220	1,483,125,533	1,889,836,907
Male householder, no wife present:	737,658,332	556,313,963	919,002,701
With own children under 18 years	413,400,916	303,726,899	523,074,933
No own children under 18 years	324,257,416	205,138,113	443,376,719
Female householder, no husband present:	948,822,888	837,683,759	1,059,962,017
With own children under 18 years	587,694,434	499,955,097	675,433,771
No own children under 18 years	361,128,454	282,163,081	440,093,827

Notes

The 2002 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Click on the table title to access subject characteristics and code lists related to this table.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '**' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '***' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
