[H014. TENURE BY HOUSEHOLD SIZE - Universe: OCCUPIED HOUSING UNITS](#)
Data Set: [2002 American Community Survey Summary Tables](#)
Survey: American Community Survey

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	225,474	221,333	229,616
Owner occupied:	144,778	139,680	149,877
1-person household	25,213	23,467	26,959
2-person household	52,124	48,525	55,723
3-person household	26,201	21,701	30,701
4-person household	22,856	20,762	24,950
5-person household	11,964	10,335	13,593
6-person household	3,944	2,842	5,046
7-or-more person household	2,476	1,572	3,380
Renter occupied:	80,696	77,155	84,237
1-person household	25,277	22,256	28,298
2-person household	22,039	19,584	24,494
3-person household	12,847	11,016	14,679
4-person household	11,161	9,394	12,928
5-person household	4,724	3,569	5,879
6-person household	2,732	1,800	3,664
7-or-more person household	1,916	1,075	2,758

Notes

The 2002 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Click on the table title to access subject characteristics and code lists related to this table.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '**' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '***' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
