

H023. TENURE BY ROOMS - Universe: OCCUPIED HOUSING UNITS

Data Set: [2002 American Community Survey Summary Tables](#)

Survey: American Community Survey

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	225,474	221,333	229,616
Owner occupied:	144,778	139,680	149,877
1 room	787	111	1,464
2 rooms	3,718	2,797	4,639
3 rooms	10,410	8,560	12,260
4 rooms	23,003	19,564	26,442
5 rooms	31,838	29,536	34,140
6 rooms	26,442	23,922	28,962
7 rooms	20,778	18,588	22,968
8 rooms	14,026	12,336	15,716
9 or more rooms	13,776	11,916	15,636
Renter occupied:	80,696	77,155	84,237
1 room	4,691	3,569	5,813
2 rooms	10,015	8,617	11,413
3 rooms	13,909	12,076	15,742
4 rooms	22,506	19,246	25,766
5 rooms	14,673	12,569	16,777
6 rooms	9,844	8,362	11,326
7 rooms	2,941	2,104	3,778
8 rooms	906	527	1,286
9 or more rooms	1,211	574	1,848

Notes

The 2002 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Click on the table title to access subject characteristics and code lists related to this table.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '***' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '****' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
