H027. UNITS IN STRUCTURE - Universe: HOUSING UNITS Data Set: 2002 American Community Survey Summary Tables Survey: American Community Survey

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	265,377	****	****
1, detached	157,853	150,273	165,433
1, attached	19,996	17,940	22,052
2	14,944	12,479	17,409
3 or 4	20,354	18,272	22,436
5 to 9	13,843	12,016	15,670
10 to 19	6,983	5,549	8,417
20 to 49	6,350	5,236	7,464
50 or more	5,766	2,826	8,706
Mobile home	18,850	13,125	24,576
Boat, RV, van, etc.	438	245	631

Notes

The 2002 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Click on the table title to access subject characteristics and code lists related to this table.

1. An 1** entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard

error and thus the lower and upper bounds. A statistical test is not appropriate. 2. An ^{****} entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.

3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.

4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

6. An '***' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
