Courses from the first year of upper secondary education and onwards by students studying in Iceland and domiciled in Iceland. Enrolment is computed as the proportion of students in the corresponding age group.

Domicile refers to December 1st each year.

Year 2000 One 14 year old student is counted in this category with the 15 year olds.

Year 2001 Two 14 year old students are counted in this category with the 15 year olds.

Year 2002 Three students younger than 15 are counted in this category with the 15 year olds.

Year 2006 One 14 year old student is counted in this category with the 15 year olds.

Year 2007 Two 14 year old students are counted in this category with the 15 year olds.

Year 2008 One 14 year old student is counted in this category with the 15 year olds.

Year 2009 One 14 year old student is counted in this category with the 15 year olds.

Year 2010 Two 14 year old students are counted in this category with the 15 year olds.

Year 2011 This year there are no students younger than 15 years old in the dataset.

Year 2012 This year there are no students younger than 15 years old in the dataset.

Year 2013 This year there are no students younger than 15 years old in the dataset.

Latest update: 2015-03-04

Unit: Number

Reference time: 1999-2013
