

PCT051C. AGE OF HOUSEHOLDER BY HOUSEHOLD INCOME IN THE PAST 12 MONTHS (IN 2002 INFLATION-ADJUSTED DOLLARS) (AMERICAN INDIAN AND ALASKA NATIVE ALONE HOUSEHOLDER) - Universe: HOUSEHOLDS WITH A HOUSEHOLDER WHO IS AMERICAN INDIAN AND ALASKA NATIVE ALONE

Data Set: [2002 American Community Survey Summary Tables](#)

Survey: American Community Survey

NOTE: Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	25,088	22,062	28,114
Householder under 25 years:	1,169	610	1,728
Less than \$10,000	295	0	597
\$10,000 to \$14,999	87	0	234
\$15,000 to \$19,999	171	0	354
\$20,000 to \$24,999	62	0	136
\$25,000 to \$29,999	174	0	425
\$30,000 to \$34,999	30	0	81
\$35,000 to \$39,999	54	0	123
\$40,000 to \$44,999	238	32	444

\$40,000 to \$44,999	37	0	98
\$45,000 to \$49,999	17	0	47
\$50,000 to \$59,999	497	0	1,419
\$60,000 to \$74,999	349	0	979
\$75,000 to \$99,999	471	0	1,077
\$100,000 to \$124,999	0	0	287
\$125,000 to \$149,999	0	0	287
\$150,000 to \$199,999	37	0	103
\$200,000 or more	0	0	287

Notes

The 2002 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

The number of householders does not necessarily equal the number of households because of differences in the weighting schemes for the population and occupied housing units.

Click on the table title to access subject characteristics and code lists related to this table.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '**' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '****' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
