

HCT002. TENURE BY HOUSEHOLD SIZE BY AGE OF HOUSEHOLDER - Universe: OCCUPIED HOUSING UNITS

Data Set: [2002 American Community Survey Summary Tables](#)

Survey: American Community Survey

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	225,474	221,333	229,616
Owner occupied:	144,778	139,680	149,877
1-person household:	25,213	23,467	26,959
Householder 15 to 54 years	14,490	12,530	16,450
Householder 55 to 64 years	4,719	3,777	5,661
Householder 65 to 74 years	3,298	2,630	3,966
Householder 75 years and over	2,706	1,249	4,163
2-or-more person household:	119,565	114,306	124,824
Householder 15 to 54 years	85,869	81,855	89,883
Householder 55 to 64 years	20,501	17,851	23,151
Householder 65 to 74 years	8,342	7,355	9,329
Householder 75 years and over	4,853	3,286	6,421
Renter occupied:	80,696	77,155	84,237
1-person household:	25,277	22,256	28,298
Householder 15 to 54 years	18,022	15,456	20,588
Householder 55 to 64 years	3,772	2,924	4,620
Householder 65 to 74 years	2,056	1,224	2,888
Householder 75 years and over	1,427	782	2,072
2-or-more person household:	55,419	50,784	60,054
Householder 15 to 54 years	50,758	46,060	55,456
Householder 55 to 64 years	3,565	2,336	4,794
Householder 65 to 74 years	659	313	1,006
Householder 75 years and over	437	91	784

Notes

The 2002 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Click on the table title to access subject characteristics and code lists related to this table.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '***' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '*****' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
