HCT013. TENURE BY POVERTY STATUS OF HOUSEHOLDER IN THE PAST 12 MONTHS BY RECEIPT OF SOCIAL SECURITY INCOME IN THE PAST 12 MONTHS - Universe: OCCUPIED HOUSING UNITS
Data Set: 2002 American Community Survey Summary Tables
Survey: American Community Survey

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	225,474	221,333	229,616
Owner occupied:	144,778	139,680	149,877
Income in the past 12 months below poverty level:	6,003	4,724	7,282
With Social Security income	1,208	543	1,873
No Social Security income	4,795	3,853	5,737
Income in the past 12 months at or above poverty level:	138,775	133,932	143,618
With Social Security income	28,557	26,257	30,857
No Social Security income	110,218	105,222	115,214
Renter occupied:	80,696	77,155	84,237
Income in the past 12 months below poverty level:	10,414	8,581	12,247
With Social Security income	1,308	382	2,234
No Social Security income	9,106	7,788	10,424
Income in the past 12 months at or above poverty level:	70,282	66,456	74,108
With Social Security income	7,727	6,506	8,948
No Social Security income	62,555	58,775	66,335

Notes

The 2002 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Click on the table title to access subject characteristics and code lists related to this table.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '**' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '***' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
