

P011C. HOUSEHOLD SIZE BY HOUSEHOLD TYPE BY PRESENCE OF OWN CHILDREN (AMERICAN INDIAN AND ALASKA NATIVE ALONE HOUSEHOLDER) - Universe: HOUSEHOLDS WITH A HOUSEHOLDER WHO IS AMERICAN INDIAN AND ALASKA NATIVE ALONE

Data Set: [2003 American Community Survey Summary Tables](#)

Survey: American Community Survey

NOTE: Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

[« hide upper and lower bounds](#)

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	27,489	24,010	30,968
1-person household:	6,339	5,247	7,431
Male householder	3,836	2,791	4,881
Female householder	2,503	1,979	3,027
2-or-more-person household:	21,150	18,347	23,953
Family households:	19,886	16,221	23,551
Married-couple family:	10,720	7,969	13,471
With own children under 18 years	6,328	4,071	8,585
No own children under 18 years	4,392	3,589	5,195
Other family:	9,166	7,155	11,177
Male householder, no wife present:	2,453	1,571	3,335
With own children under 18 years	1,875	1,207	2,543
No own children under 18 years	578	37	1,119
Female householder, no husband present:	6,713	5,314	8,112
With own children under 18 years	4,089	3,475	4,703
No own children under 18 years	2,624	1,453	3,795
Nonfamily households:	1,264	262	2,266
Male householder	973	5	1,941
Female householder	291	33	549

Notes

The 2003 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

The number of householders does not necessarily equal the number of households because of differences in the weighting schemes for the population and occupied housing units.

1. An '**' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '***' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-.' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+.' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '****' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
