

**P026. FAMILY TYPE BY PRESENCE AND AGE OF OWN CHILDREN UNDER 18 YEARS BY AGE OF OWN CHILDREN - Universe: FAMILIES**

Data Set: [2003 American Community Survey Summary Tables](#)

Survey: American Community Survey

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

[« hide upper and lower bounds](#)

	<b>Alaska</b>		
	Estimate	Lower Bound	Upper Bound
Total:	156,453	152,133	160,773
Married-couple family:	115,568	111,990	119,146
With own children under 18 years:	60,607	56,858	64,356
Under 6 years only	13,576	11,578	15,574
Under 6 years and 6 to 17 years	12,645	10,750	14,540
6 to 17 years only	34,386	32,108	36,664
No own children under 18 years	54,961	52,375	57,547
Other family:	40,885	38,099	43,671
Male householder, no wife present:	13,896	12,354	15,438
With own children under 18 years:	9,392	8,218	10,566
Under 6 years only	2,735	1,595	3,875
Under 6 years and 6 to 17 years	1,185	607	1,763
6 to 17 years only	5,472	4,400	6,544
No own children under 18 years	4,504	3,497	5,511
Female householder, no husband present:	26,989	24,762	29,216
With own children under 18 years:	17,953	16,310	19,596
Under 6 years only	4,415	3,384	5,446
Under 6 years and 6 to 17 years	2,546	1,807	3,285
6 to 17 years only	10,992	9,705	12,279
No own children under 18 years	9,036	7,574	10,498

**Notes**

The 2003 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

1. An '\*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '\*\*\*' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '\*\*\*\*' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '\*\*\*\*\*' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
