

P027C. FAMILY TYPE BY PRESENCE AND AGE OF OWN CHILDREN (AMERICAN INDIAN AND ALASKA NATIVE ALONE HOUSEHOLDER) - Universe: FAMILIES WITH A HOUSEHOLDER WHO IS AMERICAN INDIAN AND ALASKA NATIVE ALONE

Data Set: [2003 American Community Survey Summary Tables](#)

Survey: American Community Survey

NOTE: Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

[« hide upper and lower bounds](#)

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	19,886	16,221	23,551
Married-couple family:	10,720	7,969	13,471
With own children under 18 years:	6,328	4,071	8,585
Under 6 years only	1,195	0	2,435
Under 6 years and 6 to 17 years	1,695	176	3,214
6 to 17 years only	3,438	2,596	4,280
No own children under 18 years	4,392	3,589	5,195
Other family:	9,166	7,155	11,177
Male householder, no wife present:	2,453	1,571	3,335
With own children under 18 years	1,875	1,207	2,543
No own children under 18 years	578	37	1,119
Female householder, no husband present:	6,713	5,314	8,112
With own children under 18 years:	4,089	3,475	4,703
Under 6 years only	978	372	1,584
Under 6 years and 6 to 17 years	318	17	619
6 to 17 years only	2,793	2,240	3,346
No own children under 18 years	2,624	1,453	3,795

Notes

The 2003 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '**' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '****' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
