P028. OWN CHILDREN UNDER 18 YEARS BY FAMILY TYPE AND AGE - Universe: OWN CHILDREN UNDER 18 YEARS
Data Set: 2003 American Community Survey Summary Tables
Survey: American Community Survey

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

« hide upper and lower bounds

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	164,930	162,385	167,475
In married-couple families:	118,393	113,538	123,248
Under 3 years	17,395	16,145	18,645
3 and 4 years	13,738	12,156	15,320
5 years	5,183	3,347	7,019
6 to 11 years	40,722	38,396	43,048
12 to 17 years	41,355	37,769	44,941
In other families:	46,537	42,287	50,787
Male householder, no wife present:	14,304	12,275	16,333
Under 3 years	3,076	2,254	3,898
3 and 4 years	1,378	749	2,007
5 years	127	4	250
6 to 11 years	4,430	3,330	5,530
12 to 17 years	5,293	3,772	6,814
Female householder, no husband present:	32,233	28,297	36,169
Under 3 years	4,245	3,176	5,314
3 and 4 years	2,417	1,737	3,097
5 years	2,133	1,157	3,109
6 to 11 years	8,590	6,993	10,187
12 to 17 years	14,848	11,225	18,471

Notes

The 2003 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '**' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '***' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
