

## P031. SEX BY MARITAL STATUS FOR THE POPULATION 15 YEARS AND OVER - Universe:

POPULATION 15 YEARS AND OVER

Data Set: 2003 American Community Survey Summary Tables

Survey: American Community Survey

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see <u>Survey Methodology</u>.

« hide upper and lower bounds

	Alaska		
	Estimate Lower Bound Upper Bound		
	Estimate	Lower Bound	Upper Bound
Total:	476,117	475,215	477,019
Male:	242,449	241,310	243,588
Never married	78,614	75,524	81,704
Now married:	133,484	130,250	136,718
Married, spouse present	124,136	121,264	127,008
Married, spouse absent:	9,348	7,916	10,780
Separated	3,881	2,881	4,881
Other	5,467	4,446	6,488
Widowed	4,477	3,146	5,808
Divorced	25,874	22,955	28,793
Female:	233,668	232,610	234,726
Never married	55,636	52,115	59,157
Now married:	132,539	128,287	136,791
Married, spouse present	119,864	116,751	122,977
Married, spouse absent:	12,675	10,805	14,545
Separated	5,988	4,435	7,541
Other	6,687	5,699	7,675
Widowed	12,056	10,924	13,188
Divorced	33,437	30,619	36,255

## Notes

The 2003 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

- 1. An 1\*\* entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.

  2. An '\*\*' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard
- error and thus the lower and upper bounds. A statistical test is not appropriate.
- 3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
- 4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
- 5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
- 6. An '\*\*\*' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
  7. An '\*\*\*\*\*' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
