

P062. PRESENCE OF OWN CHILDREN UNDER 18 YEARS BY AGE OF OWN CHILDREN UNDER 18 YEARS BY EMPLOYMENT STATUS FOR FEMALES 16 YEARS AND OVER - Universe: FEMALES 16 YEARS AND OVER

Data Set: [2003 American Community Survey Summary Tables](#)

Survey: American Community Survey

NOTE: Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

[« hide upper and lower bounds](#)

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	227,285	226,240	228,330
With own children under 18 years:	80,181	76,730	83,632
Under 6 years only:	18,469	16,157	20,781
In labor force:	12,029	9,767	14,291
Employed or in Armed Forces	11,163	9,327	12,999
Unemployed	866	216	1,516
Not in labor force	6,440	5,328	7,552
Under 6 years and 6 to 17 years:	15,382	13,641	17,123
In labor force:	10,287	8,672	11,902
Employed or in Armed Forces	8,557	7,290	9,824
Unemployed	1,730	243	3,217
Not in labor force	5,095	4,131	6,059
6 to 17 years only:	46,330	44,079	48,581
In labor force:	37,095	34,968	39,222
Employed or in Armed Forces	34,065	32,000	36,130
Unemployed	3,030	2,014	4,046
Not in labor force	9,235	8,034	10,436
No own children under 18 years:	147,104	143,499	150,709
In labor force:	94,887	90,673	99,101
Employed or in Armed Forces	84,295	80,352	88,238
Unemployed	10,592	9,020	12,164
Not in labor force	52,217	48,999	55,435

Notes

The 2003 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '***' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '****' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
