P069. HOUSEHOLD INCOME IN THE PAST 12 MONTHS (IN 2003 INFLATION-ADJUSTED DOLLARS) - Universe: HOUSEHOLDS
Data Set: 2003 American Community Survey Summary Tables
Survey: American Community Survey

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

« hide upper and lower bounds

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	229,408	225,422	233,394
Less than $10,000	9,843	8,427	11,259
$10,000 to $14,999	13,842	11,684	16,000
$15,000 to $19,999	10,015	8,063	11,967
$20,000 to $24,999	12,426	9,259	15,593
$25,000 to $29,999	14,386	11,611	17,161
$30,000 to $34,999	12,972	11,425	14,519
$35,000 to $39,999	12,498	10,748	14,248
$40,000 to $44,999	11,128	9,644	12,612
$45,000 to $49,999	11,290	9,752	12,828
$50,000 to $59,999	20,448	16,732	24,164
$60,000 to $74,999	28,213	25,080	31,346
$75,000 to $99,999	32,283	29,666	34,900
$100,000 to $124,999	17,199	15,531	18,867
$125,000 to $149,999	10,871	8,844	12,898
$150,000 to $199,999	7,356	6,100	8,612
$200,000 or more	4,638	3,858	5,418

Notes

The 2003 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

The number of householders does not necessarily equal the number of households because of differences in the weighting schemes for the population and occupied housing units.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '**' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '***' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
