

P103. MEDIAN FAMILY INCOME IN THE PAST 12 MONTHS (IN 2003 INFLATION-ADJUSTED DOLLARS) BY FAMILY TYPE BY PRESENCE OF OWN CHILDREN UNDER 18 YEARS - Universe: FAMILIES

Data Set: [2003 American Community Survey Summary Tables](#)

Survey: American Community Survey

NOTE: Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

[« hide upper and lower bounds](#)

	Alaska		
	Estimate	Lower Bound	Upper Bound
Median family income in the past 12 months (in 2003 inflation-adjusted dollars) --			
Total	61,117	59,519	62,715
Married-couple family --			
Total	70,958	68,803	73,113
With own children under 18 years	69,248	66,365	72,131
No own children under 18 years	72,390	69,936	74,844
Other family --			
Total	35,662	32,401	38,923
Male householder, no wife present --			
Total	47,538	38,368	56,708
With own children under 18 years	40,242	37,510	42,974
No own children under 18 years	67,372	49,409	85,335
Female householder, no husband present --			
Total	31,286	27,583	34,989
With own children under 18 years	25,268	21,050	29,486
No own children under 18 years	43,512	36,329	50,695

Notes

The 2003 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '***' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '****' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
