## P115C. POVERTY STATUS IN THE PAST 12 MONTHS BY AGE (AMERICAN INDIAN AND ALASKA NATIVE ALONE) - Universe: AMERICAN INDIAN AND ALASKA NATIVE ALONE POPULATION FOR WHOM POVERTY STATUS IS DETERMINED Data Set: 2003 American Community Survey Summary Tables

Survey: American Community Survey

S. Census Bureau

American FactFinder

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see <u>Survey Methodology</u>.

<u>« hide upper and lower bound</u>			
	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	91,712	83,748	99,676
Income in the past 12 months below poverty level:	22,265	17,586	26,944
Under 5 years	2,469	948	3,990
5 years	971	80	1,862
6 to 11 years	3,189	556	5,822
12 to 17 years	3,995	2,271	5,719
18 to 64 years	11,144	9,661	12,627
65 to 74 years	238	4	472
75 years and over	259	0	829
Income in the past 12 months at or above poverty level:	69,447	65,297	73,597
Under 5 years	4,417	3,837	4,997
5 years	1,084	0	2,494
6 to 11 years	5,578	4,460	6,696
12 to 17 years	10,799	8,968	12,630
18 to 64 years	40,939	37,472	44,406
65 to 74 years	4,165	3,009	5,321
75 years and over	2,465	529	4,401

Notes

The 2003 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

1. An <sup>1\*\*</sup> entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.

2. An <sup>\*\*\*\*</sup> entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.

3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.

4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution. 6. An '\*\*' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. 6. An '\*\*\*' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution.

7. An '\*\*\*\*\*' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
