

H007. TENURE BY RACE OF HOUSEHOLDER - Universe: OCCUPIED HOUSING UNITS

Data Set: [2003 American Community Survey Summary Tables](#)

Survey: American Community Survey

NOTE: Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

[« hide upper and lower bounds](#)

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	229,408	225,422	233,394
Owner occupied:	143,241	139,316	147,166
Householder who is White alone	115,768	112,012	119,524
Householder who is Black or African American alone	3,691	2,868	4,514
Householder who is American Indian and Alaska Native alone	13,869	12,025	15,713
Householder who is Asian alone	3,583	2,972	4,194
Householder who is Native Hawaiian and Other Pacific Islander alone	130	16	244
Householder who is Some other race alone	1,468	851	2,085
Householder who is Two or more races:	4,732	3,418	6,046
Householder who is Two races including Some other race	141	32	250
Householder who is Two races excluding Some other race, and three or more races	4,591	3,247	5,935
Renter occupied:	86,167	82,439	89,895
Householder who is White alone	58,399	54,391	62,407
Householder who is Black or African American alone	4,555	3,506	5,604
Householder who is American Indian and Alaska Native alone	13,620	11,585	15,655
Householder who is Asian alone	3,527	2,770	4,284
Householder who is Native Hawaiian and Other Pacific Islander alone	666	368	964
Householder who is Some other race alone	2,030	1,314	2,746
Householder who is Two or more races:	3,370	2,628	4,112
Householder who is Two races including Some other race	132	0	267
Householder who is Two races excluding Some other race, and three or more races	3,238	2,501	3,975

Notes

The 2003 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '***' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '****' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
