

#### H014. TENURE BY HOUSEHOLD SIZE - Universe: OCCUPIED HOUSING UNITS

Data Set: [2003 American Community Survey Summary Tables](#)

Survey: American Community Survey

NOTE: Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

[« hide upper and lower bounds](#)

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	229,408	225,422	233,394
Owner occupied:	143,241	139,316	147,166
1-person household	29,947	27,460	32,434
2-person household	46,206	43,763	48,649
3-person household	25,655	23,758	27,552
4-person household	23,988	21,412	26,564
5-person household	12,254	10,365	14,143
6-person household	3,018	2,026	4,010
7-or-more person household	2,173	1,514	2,832
Renter occupied:	86,167	82,439	89,895
1-person household	27,705	24,360	31,050
2-person household	22,904	20,594	25,214
3-person household	14,221	12,388	16,054
4-person household	11,058	9,434	12,682
5-person household	5,383	3,548	7,218
6-person household	4,039	2,016	6,062
7-or-more person household	857	557	1,157

#### Notes

The 2003 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

1. An '\*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '\*\*\*' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '\*\*\*\*' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '\*\*\*\*\*' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
