

H031. YEAR STRUCTURE BUILT - Universe: HOUSING UNITS

Data Set: [2003 American Community Survey Summary Tables](#)

Survey: American Community Survey

NOTE: Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

[« hide upper and lower bounds](#)

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	267,987	*****	*****
Built 2000 or later	11,949	8,144	15,754
Built 1995 to 1999	29,556	26,835	32,277
Built 1990 to 1994	20,763	18,049	23,477
Built 1980 to 1989	77,571	74,419	80,723
Built 1970 to 1979	74,861	69,788	79,934
Built 1960 to 1969	25,729	23,611	27,847
Built 1950 to 1959	15,001	12,740	17,262
Built 1940 to 1949	7,036	5,707	8,365
Built 1939 or earlier	5,521	4,140	6,902

Notes

The 2003 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '***' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '*****' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
