	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	156,453	152,133	160,773
Married-couple family:	115,568	111,990	119,146
Householder 15 to 24 years	4,028	3,016	5,040
Householder 25 to 34 years	20,677	17,794	23,560
Householder 35 to 44 years	31,489	29,219	33,759
Householder 45 to 54 years	31,195	29,024	33,366
Householder 55 to 59 years	10,729	9,671	11,787
Householder 60 to 64 years	6,874	5,865	7,883
Householder 65 to 74 years	7,853	6,236	9,470
Householder 75 years and over	2,723	2,032	3,414
Other family:	40,885	38,099	43,671
Male householder, no wife present:	13,896	12,354	15,438
Householder 15 to 24 years	1,587	446	2,728
Householder 25 to 34 years	2,802	2,026	3,578
Householder 35 to 44 years	3,626	2,602	4,650
Householder 45 to 54 years	4,099	3,328	4,870
Householder 55 to 59 years	763	486	1,040
Householder 60 to 64 years	542	305	779
Householder 65 to 74 years	192	32	352
Householder 75 years and over	285	59	511
Female householder, no husband present:	26,989	24,762	29,216
Householder 15 to 24 years	3,045	2,270	3,820
Householder 25 to 34 years	4,442	3,256	5,628
Householder 35 to 44 years	7,645	6,179	9,111
Householder 45 to 54 years	7,478	6,236	8,720
Householder 55 to 59 years	1,665	1,230	2,100
Householder 60 to 64 years	879	545	1,213
Householder 65 to 74 years	901	503	1,299
Householder 75 years and over	934	466	1,402

Notes

The 2003 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '***' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '****' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
