

PCT029. RESIDENCE 1 YEAR AGO FOR THE POPULATION 1 YEAR AND OVER--STATE, COUNTY AND PLACE LEVEL - Universe: POPULATION 1 YEAR AND OVER

Data Set: [2003 American Community Survey Summary Tables](#)

Survey: American Community Survey

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

[« hide upper and lower bounds](#)

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	620,151	618,081	622,221
Same house 1 year ago	500,886	491,155	510,617
Different house in United States 1 year ago:	115,349	106,355	124,343
Same city or town:	52,675	45,313	60,037
Same county	52,675	45,313	60,037
Different county (same state)	0	0	270
Elsewhere:	62,674	56,388	68,960
Same county	15,363	12,451	18,275
Different county:	47,311	41,601	53,021
Same state	16,200	13,227	19,173
Different state:	31,111	26,760	35,462
Northeast	2,739	1,276	4,202
Midwest	3,899	2,483	5,315
South	7,930	5,828	10,032
West	16,543	13,453	19,633
Abroad 1 year ago:	3,916	2,525	5,307
Puerto Rico	105	0	279
U.S. Island Areas	0	0	270
Foreign country	3,811	2,406	5,216

Notes

The 2003 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '***' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '****' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
