

PCT035C. SEX BY EDUCATIONAL ATTAINMENT FOR THE POPULATION 25 YEARS AND OVER (AMERICAN INDIAN AND ALASKA NATIVE ALONE) - Universe: AMERICAN INDIAN AND ALASKA NATIVE ALONE POPULATION 25 YEARS AND OVER

Data Set: [2003 American Community Survey Summary Tables](#)

Survey: American Community Survey

NOTE: Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

[« hide upper and lower bounds](#)

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	47,672	44,135	51,209
Male:	22,828	21,348	24,308
Less than 9th grade	1,728	482	2,974
9th to 12th grade, no diploma	3,794	2,991	4,597
High school graduate (includes equivalency)	10,884	8,943	12,825
Some college, no degree	3,172	1,982	4,362
Associate degree	1,134	135	2,133
Bachelor's degree	2,052	1,572	2,532
Graduate degree	64	0	146
Female:	24,844	22,077	27,611
Less than 9th grade	2,284	786	3,782
9th to 12th grade, no diploma	3,105	2,088	4,122
High school graduate (includes equivalency)	11,580	8,883	14,277
Some college, no degree	6,007	4,334	7,680
Associate degree	378	151	605
Bachelor's degree	1,244	738	1,750
Graduate degree	246	56	436

Notes

The 2003 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '***' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '****' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
