

PCT048C. SEX BY AGE BY EMPLOYMENT STATUS FOR THE POPULATION 16 YEARS AND OVER (AMERICAN INDIAN AND ALASKA NATIVE ALONE) - Universe: AMERICAN INDIAN AND ALASKA NATIVE ALONE POPULATION 16 YEARS AND OVER

Data Set: [2003 American Community Survey Summary Tables](#)

Survey: American Community Survey

NOTE: Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

Civilian:	14,821	13,148	16,494
Employed	10,367	9,272	11,462
Unemployed	4,454	2,902	6,006
Not in labor force	4,190	3,146	5,234
55 to 64 years:	2,469	1,911	3,027
In labor force:	1,270	944	1,596
In Armed Forces	0	0	270
Civilian:	1,270	944	1,596
Employed	1,270	944	1,596
Unemployed	0	0	270
Not in labor force	1,199	725	1,673
65 to 69 years:	1,235	682	1,788
In labor force:	449	54	844
In Armed Forces	0	0	270
Civilian:	449	54	844
Employed	327	0	674
Unemployed	122	0	307
Not in labor force	786	508	1,064
70 years and over:	2,129	1,535	2,723
In labor force:	0	0	270
In Armed Forces	0	0	270
Civilian:	0	0	270
Employed	0	0	270
Unemployed	0	0	270
Not in labor force	2,129	1,535	2,723

Notes

The 2003 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '***' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '****' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
