

**PCT068. POVERTY STATUS IN THE PAST 12 MONTHS OF FAMILIES BY FAMILY TYPE BY
WORK EXPERIENCE OF HOUSEHOLDER AND SPOUSE - Universe: FAMILIES**

Data Set: [2003 American Community Survey Summary Tables](#)

Survey: American Community Survey

NOTE: Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

[« hide upper and lower bounds](#)

Alaska			
	Estimate	Lower Bound	Upper Bound
Total:	156,453	152,133	160,773
Income in the past 12 months below poverty level:	12,554	10,249	14,859
Married-couple family:	4,302	2,274	6,330
Householder worked full-time, year-round in the past 12 months:	1,144	0	2,695
Spouse worked full-time, year-round in the past 12 months	151	0	311
Spouse worked less than full-time, year-round in the past 12 months	103	7	199
Spouse did not work in the past 12 months	890	0	2,470
Householder worked less than full-time, year-round in the past 12 months:	2,077	1,423	2,731
Spouse worked full-time, year-round in the past 12 months	0	0	270
Spouse worked less than full-time, year-round in the past 12 months	1,474	973	1,975
Spouse did not work in the past 12 months	603	224	982
Householder did not work in the past 12 months:	1,081	575	1,587
Spouse worked full-time, year-round in the past 12 months	191	0	405
Spouse worked less than full-time, year-round in the past 12 months	171	34	308
Spouse did not work in the past 12 months	719	290	1,148
Other family:	8,252	6,729	9,775
Male householder, no wife present:	1,655	781	2,529
Householder worked full-time, year-round in the past 12 months	412	0	964
Householder worked less than full-time, year-round in the past 12 months	955	481	1,429
Householder did not work in the past 12 months	288	0	579
Female householder, no husband present:	6,597	5,478	7,716
Householder worked full-time, year-round in the past 12 months	469	117	821
Householder worked less than full-time, year-round in the past 12 months	4,549	3,628	5,470
Householder did not work in the past 12 months	1,579	1,023	2,135
Income in the past 12 months at or above poverty level:	143,899	140,402	147,396
Married-couple family:	111,266	108,152	114,380
Householder worked full-time, year-round in the past 12 months:	59,734	56,974	62,494
Spouse worked full-time, year-round in the past 12 months	28,873	26,713	31,033
Spouse worked less than full-time, year-round in the past 12 months	20,661	18,391	22,931
Spouse did not work in the past 12 months	10,200	9,072	11,328
Householder worked less than full-time, year-round in the past 12 months:	34,737	32,715	36,759
Spouse worked full-time, year-round in the past 12 months	12,573	11,252	13,894
Spouse worked less than full-time, year-round in the past 12 months	16,398	14,623	18,173
Spouse did not work in the past 12 months	5,766	3,905	7,627
Householder did not work in the past 12 months:	16,795	14,807	18,783
Spouse worked full-time, year-round in the past 12 months	4,858	3,639	6,077
Spouse worked less than full-time, year-round in the past 12 months	3,081	1,624	4,538
Spouse did not work in the past 12 months	8,856	7,716	9,996
Other family:	32,633	30,339	34,927
Male householder, no wife present:	12,241	10,779	13,703
Householder worked full-time, year-round in the past 12 months	7,068	5,681	8,455
Householder worked less than full-time, year-round in the past 12 months	4,338	2,800	5,876
Householder did not work in the past 12 months	835	579	1,091
Female householder, no husband present:	20,392	18,539	22,245
Householder worked full-time, year-round in the past 12 months	10,422	9,130	11,714
Householder worked less than full-time, year-round in the past 12 months	7,042	5,931	8,153
Householder did not work in the past 12 months	2,928	2,285	3,571

Notes

The 2003 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

The universe - families - includes those householders and spouses who were 15 years old and over at the time of the interview. Labor force information was not collected for people under 16 years of age. Therefore, people who were 15 years old at the time of the interview are treated as "did not work in the past 12 months."

1. An "-" entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An "##" entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An "-" entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An "-" following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An "+" following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An "####" entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An "*****" entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
