

HCT001. TENURE BY HOUSEHOLD TYPE AND PRESENCE AND AGE OF OWN CHILDREN -

Universe: OCCUPIED HOUSING UNITS

Data Set: 2003 American Community Survey Summary Tables

Survey: American Community Survey

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see <u>Survey Methodology</u>.

« hide upper and lower bounds

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	229,408	225,422	233,394
Owner occupied:	143,241	139,316	147,166
Family households:	106,950	103,535	110,365
Married-couple family:	87,159	83,537	90,781
With own children under 18 years	42,566	39,431	45,701
No own children under 18 years	44,593	42,309	46,877
Other family:	19,791	17,764	21,818
Male householder, no wife present:	7,402	6,313	8,491
With own children under 18 years	4,548	3,435	5,661
No own children under 18 years	2,854	2,017	3,691
Female householder, no husband present:	12,389	10,754	14,024
With own children under 18 years	6,461	5,307	7,615
No own children under 18 years	5,928	4,879	6,977
Nonfamily households	36,291	33,877	38,705
Renter occupied:	86,167	82,439	89,895
Family households:	49,503	46,210	52,796
Married-couple family:	28,409	26,713	30,105
With own children under 18 years	18,041	16,430	19,652
No own children under 18 years	10,368	8,890	11,846
Other family:	21,094	18,033	24,155
Male householder, no wife present:	6,494	5,003	7,985
With own children under 18 years	4,844	3,603	6,085
No own children under 18 years	1,650	841	2,459
Female householder, no husband present:	14,600	12,568	16,632
With own children under 18 years	11,492	10,065	12,919
No own children under 18 years	3,108	1,814	4,402
Nonfamily households	36,664	33,353	39,975

Notes

The 2003 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

- 1. An ** entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.

 2. An '**' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard
- error and thus the lower and upper bounds. A statistical test is not appropriate.
- 3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
- 4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
- 5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
- 6. An '***' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
 7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
