HCT002. TENURE BY HOUSEHOLD SIZE BY AGE OF HOUSEHOLDER - Universe: OCCUPIED HOUSING UNITS
Data Set: 2003 American Community Survey Summary Tables
Survey: American Community Survey

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

« hide upper and lower bounds

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	229,408	225,422	233,394
Owner occupied:	143,241	139,316	147,166
1-person household:	29,947	27,460	32,434
Householder 15 to 54 years	15,964	14,367	17,561
Householder 55 to 64 years	6,828	5,910	7,746
Householder 65 to 74 years	4,052	2,842	5,262
Householder 75 years and over	3,103	2,170	4,036
2-or-more person household:	113,294	109,884	116,704
Householder 15 to 54 years	81,303	77,783	84,823
Householder 55 to 64 years	20,120	18,797	21,443
Householder 65 to 74 years	8,162	7,177	9,147
Householder 75 years and over	3,709	3,086	4,332
Renter occupied:	86,167	82,439	89,895
1-person household:	27,705	24,360	31,050
Householder 15 to 54 years	20,145	17,696	22,594
Householder 55 to 64 years	3,988	2,784	5,192
Householder 65 to 74 years	2,017	1,148	2,886
Householder 75 years and over	1,555	1,012	2,098
2-or-more person household:	58,462	54,862	62,062
Householder 15 to 54 years	53,264	49,463	57,065
Householder 55 to 64 years	3,355	2,685	4,025
Householder 65 to 74 years	1,494	612	2,376
Householder 75 years and over	349	126	572

Notes

The 2003 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '**' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '***' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
