

HCT013. TENURE BY POVERTY STATUS OF HOUSEHOLDER IN THE PAST 12 MONTHS BY RECEIPT OF SOCIAL SECURITY INCOME IN THE PAST 12 MONTHS - Universe: OCCUPIED HOUSING UNITS

Data Set: [2003 American Community Survey Summary Tables](#)

Survey: American Community Survey

NOTE: Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

[« hide upper and lower bounds](#)

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	229,408	225,422	233,394
Owner occupied:	143,241	139,316	147,166
Income in the past 12 months below poverty level:	6,098	4,110	8,086
With Social Security income	1,224	445	2,003
No Social Security income	4,874	3,469	6,279
Income in the past 12 months at or above poverty level:	137,143	131,847	142,439
With Social Security income	27,563	25,543	29,583
No Social Security income	109,580	105,312	113,848
Renter occupied:	86,167	82,439	89,895
Income in the past 12 months below poverty level:	14,096	11,853	16,339
With Social Security income	781	366	1,196
No Social Security income	13,315	11,138	15,492
Income in the past 12 months at or above poverty level:	72,071	68,019	76,123
With Social Security income	8,633	6,562	10,704
No Social Security income	63,438	60,022	66,854

Notes

The 2003 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '***' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '****' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
