**Note(s) :**

**i. Census metropolitan areas and census agglomerations crossing provincial boundaries**

There is one census metropolitan area (Ottawa - Gatineau) and three census agglomerations (Campbellton, Hawkesbury and Lloydminster) that cross provincial boundaries. The data for their respective provincial parts are included with the appropriate census metropolitan area or census agglomeration, with data for the census metropolitan area or census agglomeration within the province of the provincial part that contributes the majority of the population to the area. For example, Ottawa - Gatineau can be found in Ontario, Campbellton in New Brunswick, Hawkesbury in Ontario and Lloydminster in Alberta.

**1. Total - Mobility status 5 years ago**

Refers to the relationship between a person's usual place of residence on Census Day and his or her usual place of residence five years earlier. A person is classified as a non-mover if no difference exists. Otherwise, a person is classified as a mover and this categorization is called Mobility status (5 years ago). Within the movers category, a further distinction is made between non-migrants and migrants; this difference is called migration status.

Non-movers are persons who, on Census Day, were living at the same address as the one at which they resided five years earlier.

Movers are persons who, on Census Day, were living at a different address from the one at which they resided five years earlier.

Non-migrants are movers who, on Census Day, were living at a different address, but in the same census subdivision (CSD) as the one they lived in five years earlier.

Migrants are movers who, on Census Day, were residing in a different CSD five years earlier (internal migrants) or who were living outside Canada five years earlier (external migrants).

Intraprovincial migrants are movers who, on Census Day, were living in a different census subdivision from the one in which they resided five years earlier, in the same province.

Interprovincial migrants are movers who, on Census Day, were living in a different census subdivision from the one in which they resided five years earlier, in a different province.
