**Figure**

**Mobility status - Place of residence 1 year ago of the Aboriginal identity population**

	Whitehorse, City			Yukon Territory		
	Total	Male	Female	Total	Male	Female
Total population 1 year and over <sup>32</sup>	3,740	1,720	2,020	7,490	3,620	3,865
Lived at the same address 1 year ago	2,860	1,305	1,560	6,150	2,975	3,175
Lived within the same province or territory 1 year ago, but changed address within the same census subdivision (municipality)	680	310	370	900	415	490
Lived within the same province or territory 1 year ago, but changed address from another census subdivision (municipality) within the province or territory	105	60	40	250	135	120
Lived in a different province or territory 1 year ago	95	40	50	185	95	90
Lived in a different country 1 year ago	0	0	0	0	0	0

**Figure**

**Mobility status - Place of residence 5 years ago of the Aboriginal identity population**

	Whitehorse, City			Yukon Territory		
	Total	Male	Female	Total	Male	Female
Total population 5 years and over <sup>33</sup>	3,435	1,570	1,865	6,945	3,350	3,590
Lived at the same address 5 years ago	1,465	635	830	3,755	1,785	1,965
Lived within the same province or territory 5 years ago, but changed address within the same census subdivision (municipality)	1,250	585	665	1,885	920	965
Lived within the same province or territory 5 years ago, but changed address from another census subdivision (municipality) within the province or territory	250	115	135	585	285	300
Lived in a different province or territory 5 years ago	455	230	230	705	355	345
Lived in a different country 5 years ago	10	0	10	20	10	15

## 2006 Aboriginal Population Profile

### Definitions and symbols

#### Definitions:

##### 32. Mobility status - Place of residence 1 year ago - 20% sample data

Information indicating whether the person lived in the same residence on Census Day (May 16, 2006), as he or she did one year before (May 16, 2005).

Note: Migration data for small geographic areas estimates of internal migration may be less accurate for small geographic areas, e.g., areas with less than 250 persons.

For additional information, please refer to the *2006 Census Dictionary*, catalogue number 92-566-XWE or 92-566-XPE.

##### 33. Mobility status - Place of residence 5 years ago - 20% sample data

Information indicating whether the person lived in the same residence on Census Day (May 16, 2006), as he or she did five years before (May 16, 2001).

Note: Migration data for small geographic areas estimates of internal migration may be less accurate for small geographic areas, e.g., areas with less than 250 persons.

For additional information, please refer to the *2006 Census Dictionary*, catalogue number 92-566-XWE or 92-566-XPE.

#### Symbols:

##### <sup>A</sup> adjusted figure due to boundary change

Users wishing to compare 2006 Census data with those of other censuses should then take into account that the boundaries of geographic areas may change from one census to another. In order to facilitate comparison, the 2001 Census counts are adjusted, as needed, to take into account boundary changes between the 2001 and 2006 censuses. The 2001 counts that were adjusted are identified by the letter 'A'. The letter 'A' may also refer to corrections to the 2001 counts; however, most of these are the result of boundary changes. This symbol is also used to identify areas that have been created since 2001, such as newly incorporated municipalities (census subdivisions).

##### <sup>E</sup> use with caution

After the release of the 2001 or 2006 Census population and dwelling counts, errors are occasionally uncovered in the data. It is not possible to make changes to the 2001 or 2006 Census data presented in these tables.

Refer to the [2001 population and dwelling count amendments](#) or the [2006 population and dwelling count amendments](#) for further information.

##### <sup>X</sup> area and data suppression

In addition to random rounding, area and data suppression has been adopted to further protect the confidentiality of individual respondents' personal information.

Area and data suppression results in the deletion of all information for geographic areas with populations below a specified size. For example, areas with a population of less than 40 persons are suppressed. If the community searched has a population of less than 40 persons, only the total population counts will be available.

Whenever income data are shown, those areas with populations below 250 persons, or where the number of private households is less than 40, income data are suppressed. If a community searched has less than 250 persons, or if the number of private households is less than 40, the income data will not be available. All suppressed cells and associated averages, medians and standard errors of average income have been replaced with zeros. In all cases, suppressed data are included in the appropriate higher-level aggregate subtotals and totals.

Persons living on Indian reserves and Indian settlements who were enumerated with the 2006 Census Form 2D questionnaire were not asked the questions on citizenship and immigration. Consequently, data are suppressed for Indian reserves and Indian settlements at the census subdivision level. These data are, however, included in the totals for larger geographic areas such as provinces and territories.

To view the extent to which data are suppressed, see '[suppression criteria](#)'.

**† excludes census data for one or more incompletely enumerated Indian reserves or Indian settlements**

Excludes census data for one or more incompletely enumerated Indian reserves or Indian settlements (For further information, see the '[Notes](#)'.)

**†† incompletely enumerated Indian Reserve or Indian settlement (For further information, see the '[Notes](#)'.)**

Due to incompletely enumerated Indian reserves and Indian settlements, data are not available for either the 2006 Census, the 2001 Census or for both the 2001 and 2006 censuses.

Refer to a complete list of these [geographic areas](#).

**... not applicable**

The possible reasons for the use of the three dots (...) symbol are:

- A value that cannot be calculated such as a percentage change where the denominator is zero;
- A figure is deemed inappropriate for areas that had a population and/or dwelling count amendment in 2001.

Refer to the [2001 population and dwelling count amendments](#) for further information.
