

## Alaska

### S1902. Mean Income in the Past 12 Months (In 2006 Inflation-Adjusted Dollars)

Data Set: 2006 American Community Survey

Survey: 2006 American Community Survey

NOTE: For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

Subject	Total	Margin of Error	Mean income (dollars)	Margin of Error
<b>HOUSEHOLD INCOME</b>				
<b>All households</b>	<b>229,878</b>	<b>+/-2,779</b>	<b>73,358</b>	<b>+/-1,538</b>
With earnings	88.4%	+/-0.9	69,219	+/-1,686
With interest, dividends, or net rental income	44.0%	+/-1.4	8,484	+/-1,189
With Social Security income	16.1%	+/-0.8	13,135	+/-458
With Supplemental Security Income (SSI)	2.7%	+/-0.5	7,201	+/-431
With cash public assistance income	6.3%	+/-0.7	4,132	+/-495
With retirement income	16.3%	+/-1.0	23,685	+/-1,410
<b>FAMILY INCOME BY NUMBER OF WORKERS IN FAMILY</b>				
<b>All families</b>	<b>157,939</b>	<b>+/-4,094</b>	<b>83,117</b>	<b>+/-2,364</b>
No workers	7.8%	+/-0.9	45,026	+/-6,198
1 worker	30.3%	+/-1.6	62,557	+/-5,277
2 workers, husband and wife worked	39.5%	+/-1.8	101,534	+/-3,383
2 workers, other	8.7%	+/-1.2	65,481	+/-6,139
3 or more workers, husband and wife worked	10.6%	+/-1.1	116,154	+/-8,011
3 or more workers, other	3.1%	+/-0.5	82,000	+/-9,928
<b>PER CAPITA INCOME BY RACE AND HISPANIC OR LATINO ORIGIN</b>				
<b>Total population</b>	<b>670,053</b>	<b>*****</b>	<b>26,919</b>	<b>+/-583</b>
One race--				
White	68.7%	+/-0.4	31,771	+/-850
Black or African American	3.2%	+/-0.4	20,025	+/-3,326
American Indian and Alaska Native	13.1%	+/-0.4	14,847	+/-917
Asian	4.5%	+/-0.3	21,323	+/-2,007
Native Hawaiian and Other Pacific Islander	0.6%	+/-0.1	18,879	+/-7,497
Some other race	1.8%	+/-0.4	18,883	+/-4,407
Two or more races	8.1%	+/-0.7	13,585	+/-1,933
Hispanic or Latino origin (of any race)	5.6%	+/-0.1	17,687	+/-2,043
White alone, not Hispanic or Latino	66.3%	+/-0.1	32,163	+/-874
<b>PERCENT IMPUTED</b>				
Household income in the past 12 months	21.7%	(X)	(X)	(X)
Family income in the past 12 months	22.7%	(X)	(X)	(X)
Individual income in the past 12 months	16.5%	(X)	(X)	(X)

Source: U.S. Census Bureau, 2006 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

#### Notes:

While the 2006 American Community Survey (ACS) data generally reflect the December 2005 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas, in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

The letters PDF or symbol  indicate a document is in the [Portable Document Format \(PDF\)](#). To view the file you will need the [Adobe® Acrobat® Reader](#), which is available for **free** from the Adobe web site.
