Note(s) :

i. **Census metropolitan areas and census agglomerations crossing provincial boundaries**

There is one census metropolitan area (Ottawa - Gatineau) and three census agglomerations (Campbellton, Hawkesbury and Lloydminster) that cross provincial boundaries. The data for their respective provincial parts are included with the appropriate census metropolitan area or census agglomeration, with the census metropolitan area or census agglomeration within the province of the provincial part that contributes the majority of the population to the area. The data for Ottawa - Gatineau can be found in Ontario, Campbellton in New Brunswick, Hawkesbury in Ontario and Lloydminster in Alberta.

1. **Total - Highest postsecondary certificate, diploma or degree**

'Highest certificate, diploma or degree' refers to the highest certificate, diploma or degree completed based on a hierarchy which is generally related to the time spent 'in-class.' For postsecondary completers, a university education is considered to be a higher level of schooling than a college education and college education is considered to be a higher level of education than in the trades. Although some trades requirements may take as long or longer than a given college or university program, the majority of time is spent in on-the-job paid training and less time is spent in the classroom.

2. **College, CEGEP or other non-university certificate or diploma**

'College, CEGEP or other non-university certificate or diploma' replaces the category 'Other non-university certificate or diploma' used in previous censuses. This category includes accreditation by non-degree-granting institutions such as community colleges, CEGEPs, private business colleges and technical colleges.

3. **Total - Major field of study - Classification of Instructional Programs, 2000**

'Field of study' is defined as the main discipline or subject of learning. It is collected for the highest certificate, diploma or degree above the high school level.

4. **Other fields of study**

Includes Multidisciplinary/interdisciplinary studies, Other.
