Total Aboriginal Identity population
Included in the Aboriginal identity population are those persons who reported identifying with at least one Aboriginal group, that is, North American Indian, Metis or Inuit, and/or those who reported being a Treaty Indian or a Registered Indian, as defined by the Indian Act of Canada, and/or those who reported they were members of an Indian band or First Nation.

105

Total - Area of residence
'Area of residence' refers to the following geographic areas: on reserve, urban census metropolitan area, urban non-census metropolitan area and rural area. These geographic areas can be used to show where the Abordiginal population is residing.

40

155

On reserve' includes eight census subdivision (CSD) types legally affiliated with First Nations or Indian bands, i.e., Indian reserve (IRI), Indian settlement (S-E), Indian government district (IGD), terres réservées aux Naskapis (TK), Nisga'a village (INU), Nisga'a land (NL) and Teslin land (TL), as well as 35 additional CSDs of various other types that are generally northern communities in Saskatchewan, the Northwest Territories and the Vukon Territory, which have large concentrations of Registered Indians.

An urban area has a minimum population concentration of 1,000 persons and a population density of at least 400 persons per square kilometre, based on the current census population count. All territory outside urban areas is classified as rural. On-reserve CSDs are excluded from this category.

A census metropolitan area (CMA) is a large urban area and has a population of at least 100,000

Urban non-census metropolitan areas are smaller urban areas with a population of less than 100,000.

reas include remote and wilderness areas and agricultural lands, as well as small towns, villages and other populated places with a population of less than 1,000. On-reserve CSDs are excluded from this category.

Additional information on the geographic units can be obtained from the 2006 Census Dictionary

Total - Highest certificate, diploma or degree

'Highest certificate, diploma or degree' refers to the highest certificate, diploma or degree completed based on a hierarchy which is generally related to the amount of time spent 'in-class'. For postsecondary completers, a university education is considered to be a higher level of education than in the trades. Although some trades requirements may take as long or longer to complete than a given college or university program, the majority of time is spent in on-the-job paid training and less time is spent in the classroom.

## High school certificate or equivalent

'High school certificate or equivalent' includes persons who have graduated from a secondary school or equivalent. Excludes persons with a postsecondary certificate, diploma or degree. Examples of postsecondary institutions include community colleges, institutes of technology, CEGEPs, private trade schools, private business colleges, schools of nursing and universities.

College, CEGEP or other non-university certificate or diploma

College, CEGEP or other non-university certificate or diploma' replaces the category 'Other non university certificate or diploma' in previous censuses. This category includes accreditation by non degree-granting institutions such as community colleges, CEGEPs, private business colleges and technical institutes.

Total - Major field of study - Classification of Instructional Programs, 2000
'Field of study' is defined as the main discipline or subject of learning. It is collected for the highest certificate, diploma or degree above the high school or secondary school level.

Other fields of study Includes Multidisciplinary/interdisciplinary studies, other.

# ⚠ Data quality note(s)

• Data quality index showing, for the long census questionnaire (20% sample data), a global non response rate higher than or equal to 5% but lower than 10%
