

B18005. SEX BY AGE BY MENTAL DISABILITY FOR THE CIVILIAN NONINSTITUTIONALIZED POPULATION 5 YEARS AND OVER - Universe: CIVILIAN NONINSTITUTIONALIZED POPULATION 5 YEARS AND OVER

Data Set: [2004 American Community Survey](#)

Survey: American Community Survey

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	577,744	576,032	579,456
Male:	287,878	284,335	291,421
5 to 15 years:	58,833	56,463	61,203
With a mental disability	5,569	3,475	7,663
No mental disability	53,264	51,939	54,589
16 to 20 years:	27,701	24,985	30,417
With a mental disability	1,561	950	2,172
No mental disability	26,140	23,373	28,907
21 to 64 years:	183,019	180,317	185,721
With a mental disability	9,029	7,415	10,643
No mental disability	173,990	170,942	177,038
65 to 74 years:	12,472	11,713	13,231
With a mental disability	1,254	733	1,775
No mental disability	11,218	10,416	12,020
75 years and over:	5,853	5,214	6,492
With a mental disability	1,550	908	2,192
No mental disability	4,303	3,456	5,150
Female:	289,866	286,645	293,087
5 to 15 years:	56,317	55,124	57,510
With a mental disability	2,997	2,059	3,935
No mental disability	53,320	51,907	54,733
16 to 20 years:	25,629	23,517	27,741
With a mental disability	1,187	556	1,818
No mental disability	24,442	22,216	26,668
21 to 64 years:	187,044	184,704	189,384
With a mental disability	9,373	7,963	10,783
No mental disability	177,671	175,426	179,916
65 to 74 years:	12,907	12,185	13,629
With a mental disability	1,256	791	1,721
No mental disability	11,651	10,770	12,532
75 years and over:	7,969	7,193	8,745
With a mental disability	2,134	1,507	2,761
No mental disability	5,835	5,008	6,662

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a confidence interval. The interval shown here is a 90 percent confidence interval. The stated range can be interpreted roughly as providing a 90 percent probability that the interval defined by the lower and upper bounds contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Explanation of Symbols:

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '***' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '****' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
