

# B18001. SEX BY AGE BY NUMBER OF DISABILITIES FOR THE CIVILIAN NONINSTITUTIONALIZED POPULATION 5 YEARS AND OVER - Universe: CIVILIAN NONINSTITUTIONALIZED POPULATION 5 YEARS AND OVER

Data Set: [2005 American Community Survey](#)

Survey: 2005 American Community Survey

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

	Alaska	
	Estimate	Margin of Error
Total:	585,263	+/-1,500
Male:	294,238	+/-1,780
5 to 15 years:	59,085	+/-1,345
Without any disability	53,727	+/-1,841
With one type of disability	4,924	+/-1,337
With two or more types of disability	434	+/-272
16 to 20 years:	27,122	+/-1,748
Without any disability	24,792	+/-1,655
With one type of disability	1,749	+/-617
With two or more types of disability	581	+/-368
21 to 64 years:	187,956	+/-2,081
Without any disability	159,441	+/-2,826
With one type of disability	15,938	+/-1,706
With two or more types of disability	12,577	+/-1,593
65 to 74 years:	13,670	+/-705
Without any disability	8,736	+/-1,031
With one type of disability	2,762	+/-647
With two or more types of disability	2,172	+/-553
75 years and over:	6,405	+/-489
Without any disability	2,192	+/-471
With one type of disability	1,558	+/-469
With two or more types of disability	2,655	+/-467
Female:	291,025	+/-1,333
5 to 15 years:	57,032	+/-1,004
Without any disability	54,978	+/-1,238
With one type of disability	1,749	+/-651
With two or more types of disability	305	+/-245
16 to 20 years:	25,619	+/-1,545
Without any disability	23,426	+/-1,548
With one type of disability	1,475	+/-471
With two or more types of disability	718	+/-380
21 to 64 years:	186,293	+/-1,536
Without any disability	160,420	+/-2,707
With one type of disability	11,626	+/-1,268
With two or more types of disability	14,247	+/-1,814
65 to 74 years:	12,732	+/-630
Without any disability	7,813	+/-704
With one type of disability	2,255	+/-512
With two or more types of disability	2,664	+/-555
75 years and over:	9,349	+/-651
Without any disability	3,474	+/-676
With one type of disability	1,549	+/-500
With two or more types of disability	4,326	+/-771

Source: U.S. Census Bureau, 2005 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

The Census Bureau introduced a new skip pattern for the disability questions in the 2003 ACS questionnaire. This change mainly affected two individual items -- go-outside-home disability and employment disability -- and the recode for disability status, which includes the two items. Accordingly, comparisons of data from 2003 or later with data from prior years are not recommended for the relevant questions. For more information, see the [ACS Subject Definitions](#) for Disability.

#### Explanation of Symbols:

1. An '\*' entry in the margin of error column indicates that too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '\*\*\*' entry in the margin of error column indicates that no sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
