B18001. SEX BY AGE BY NUMBER OF DISABILITIES FOR THE CIVILIAN NONINSTITUTIONALIZED POPULATION 5 YEARS AND OVER - Universe: CIVILIAN NONINSTITUTIONALIZED POPULATION 5 YEARS AND OVER
Data Set: 2004 American Community Survey
Survey: American Community Survey

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

« hide upper and lower bounds

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	577,744	576,032	579,456
Male:	287,878	284,335	291,421
5 to 15 years:	58,833	56,463	61,203
Without any disability	52,417	51,084	53,750
With one type of disability	4,705	2,615	6,795
With two or more types of disability	1,711	1,085	2,337
16 to 20 years:	27,701	24,985	30,417
Without any disability	25,267	22,755	27,779
With one type of disability	1,442	767	2,117
With two or more types of disability	992	370	1,614
21 to 64 years:	183,019	180,317	185,721
Without any disability	156,102	152,739	159,465
With one type of disability	13,642	12,045	15,239
With two or more types of disability	13,275	11,790	14,760
65 to 74 years:	12,472	11,713	13,231
Without any disability	7,367	6,715	8,019
With one type of disability	2,596	1,631	3,561
With two or more types of disability	2,509	1,869	3,149
75 years and over:	5,853	5,214	6,492
Without any disability	2,299	1,719	2,879
With one type of disability	903	457	1,349
With two or more types of disability	2,651	1,934	3,368
Female:	289,866	286,645	293,087
5 to 15 years:	56,317	55,124	57,510
Without any disability	52,553	51,125	53,981
With one type of disability	2,173	1,458	2,888
With two or more types of disability	1,591	963	2,219
16 to 20 years:	25,629	23,517	27,741
Without any disability	23,542	21,330	25,754
With one type of disability	1,452	780	2,124
With two or more types of disability	635	227	1,043
21 to 64 years:	187,044	184,704	189,384
Without any disability	161,392	158,415	164,369
With one type of disability	9,288	7,591	10,985
With two or more types of disability	16,364	14,215	18,513
65 to 74 years:	12,907	12,185	13,629
Without any disability	8,177	7,437	8,917
With one type of disability	2,606	1,896	3,316
With two or more types of disability	2,124	1,544	2,704
75 years and over:	7,969	7,193	8,745
Without any disability	2,644	1,568	3,720
With one type of disability	1,712	918	2,506
With two or more types of disability	3,613	2,554	4,672

Source: U.S. Census Bureau, 2004 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a confidence interval. The interval shown here is a 90 percent confidence interval. The stated range can be interpreted roughly as providing a 90 percent probability that the interval defined by the lower and upper bounds contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

The Census Bureau introduced a new skip pattern for the disability questions in the 2003 ACS questionnaire. This change mainly affected two individual items -- go-outside-home disability and employment disability -- and the recode for disability status, which includes the two items. Accordingly, comparisons of data from 2003 or later with data from prior years are not recommended for the relevant questions. For more information, see ACS Subject Definitions for Disability.

Explanation of Symbols:
1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '**' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '***' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
