

**PCT038C. AGE BY TYPES OF DISABILITY FOR THE CIVILIAN NONINSTITUTIONALIZED POPULATION 5 YEARS AND OVER WITH DISABILITIES (AMERICAN INDIAN AND ALASKA NATIVE ALONE) - Universe: TOTAL DISABILITIES TALLIED FOR THE CIVILIAN NONINSTITUTIONALIZED AMERICAN INDIAN AND ALASKA NATIVE ALONE POPULATION 5 YEARS AND OVER WITH DISABILITIES**

Data Set: [2002 American Community Survey Summary Tables](#)

Survey: American Community Survey

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total disabilities tallied:	29,120	23,228	35,012
Total disabilities tallied for people 5 to 15 years:	2,941	1,397	4,485
Sensory disability	135	0	310
Physical disability	570	143	997
Mental disability	1,707	804	2,610
Self-care disability	529	123	935
Total disabilities tallied for people 16 to 64 years:	20,434	15,411	25,457
Sensory disability	3,895	2,722	5,068
Physical disability	6,040	4,494	7,586
Mental disability	2,055	1,446	2,664
Self-care disability	1,467	576	2,358
Go-outside-home disability	2,674	1,392	3,956
Employment disability	4,303	2,554	6,052
Total disabilities tallied for people 65 years and over:	5,745	4,362	7,128
Sensory disability	2,132	1,495	2,769
Physical disability	1,769	1,028	2,510
Mental disability	144	5	283
Self-care disability	108	0	233
Go-outside-home disability	1,592	1,006	2,178

**Notes**

The 2002 American Community Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Click on the table title to access subject characteristics and code lists related to this table.

1. An '\*\*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An \*\*\*' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An \*\*\*\*' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An \*\*\*\*\*' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
