

[B18020C. DISABILITY STATUS BY SEX BY AGE BY EMPLOYMENT STATUS FOR THE CIVILIAN
NONINSTITUTIONALIZED POPULATION 16 TO 64 YEARS \(AMERICAN INDIAN AND ALASKA
NATIVE ALONE\) - Universe: AMERICAN INDIAN AND ALASKA NATIVE ALONE CIVILIAN
NONINSTITUTIONALIZED POPULATION 16 TO 64 YEARS](#)

Data Set: [2004 American Community Survey](#)

Survey: American Community Survey

NOTE: Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

[« hide upper and lower bounds](#)

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	51,463	49,254	53,672
With a disability:	8,165	5,290	11,040
Male:	4,224	3,025	5,423
16 to 34 years:	1,836	1,271	2,401
Employed	136	3	269
Not employed	1,700	1,115	2,285
35 to 64 years:	2,388	1,466	3,310
Employed	788	482	1,094
Not employed	1,600	568	2,632
Female:	3,941	2,035	5,847
16 to 34 years:	639	256	1,022
Employed	264	47	481
Not employed	375	74	676
35 to 64 years:	3,302	1,352	5,252
Employed	967	0	2,059
Not employed	2,335	1,378	3,292
No disability:	43,298	40,544	46,052
Male:	18,384	16,862	19,906
16 to 34 years:	7,541	6,618	8,464
Employed	3,816	2,381	5,251
Not employed	3,725	2,617	4,833
35 to 64 years:	10,843	9,729	11,957
Employed	6,762	4,934	8,590
Not employed	4,081	2,756	5,406
Female:	24,914	23,359	26,469
16 to 34 years:	12,233	9,979	14,487
Employed	7,903	4,479	11,327
Not employed	4,330	2,835	5,825
35 to 64 years:	12,681	9,595	15,767
Employed	7,438	6,292	8,584
Not employed	5,243	2,851	7,635

Source: U.S. Census Bureau, 2004 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a confidence interval. The interval shown here is a 90 percent confidence interval. The stated range can be interpreted roughly as providing a 90 percent probability that the interval defined by the lower and upper bounds contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

The Census Bureau introduced a new skip pattern for the disability questions in the 2003 ACS questionnaire. This change mainly affected two individual items -- go-outside-home disability and employment disability -- and the recode for disability status, which includes the two items. Accordingly, comparisons of data from 2003 or later with data from prior years are not recommended for the relevant questions. For more information, see the [ACS Subject Definitions](#) for Disability.

Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to [Labor Force Guidance](#).

Explanation of Symbols:

1. An "*" entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An "***" entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An "-" entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An "-" following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An "+" following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An "****" entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An "*****" entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
