– Quantity zero.

– – – Data not available.

¹Vendor payments exclude disproportionate share hospital (DSH) payments (\$14.3 billion in FY2004) and DSH mental health facility payments (\$2.9 billion in FY2004).

²Data are shown for Bureau of Economic Analysis (BEA) regions that are constructed to show economically interdependent states. These BEA geographic regions differ from U.S. Census Bureau geographic divisions shown in some Health, United States tables. See [Appendix II, Geographic region and division](#).

NOTES: Starting with 1999 data, a new Medicaid data system was introduced. Prior to 1999, recipient counts exclude individuals who only received coverage under prepaid health care and for whom no direct vendor payments were made during the year, and vendor payments exclude payments to health maintenance organizations and other prepaid health plans (\$19 billion in 1998). Data for additional years are available. See [Appendix III](#).
