 Figure

Mobility status - Place of residence 1 year ago

	Région du Nunavik (HR)			Quebec		
	Total	Male	Female	Total	Male	Female
Total population 1 year and over ⁴⁷	10,330	5,265	5,065	7,358,260	3,606,500	3,751,760
Lived at the same address 1 year ago	9,220	4,710	4,510	6,450,410	3,161,110	3,289,295
Lived within the same province or territory 1 year ago, but changed addresses within the same census subdivision (municipality)	690	340	350	524,270	257,535	266,735
Lived within the same province or territory 1 year ago, but changed addresses from another census subdivision (municipality) within the same province or territory	365	185	180	312,140	152,355	159,785
Lived in a different province or territory 1 year ago	55	25	25	23,080	11,665	11,415
Lived in a different country 1 year ago	0	0	0	48,360	23,840	24,525

 Figure

Mobility status - Place of residence 5 years ago

	Région du Nunavik (HR)			Quebec		
	Total	Male	Female	Total	Male	Female
Total population 5 years and over ⁴⁸	9,250	4,710	4,535	7,059,875	3,454,425	3,605,450
Lived at the same address 5 years ago	6,675	3,475	3,205	4,368,530	2,138,945	2,229,585
Lived within the same province or territory 5 years ago, but changed addresses within the same census subdivision (municipality)	1,665	820	845	1,452,230	707,125	745,105
Lived within the same province or territory 5 years ago, but changed addresses from another census subdivision (municipality) within the same province or territory	695	325	370	969,300	472,940	496,360
Lived in a different province or territory 5 years ago	195	85	110	73,555	36,785	36,770
Lived in a different country 5 years ago	20	0	15	196,260	98,630	97,630

2006 Community Profiles

Definitions and symbols

Definitions:

47. Mobility status - Place of residence 1 year ago - 20 % sample data

Information indicating whether the person lived in the same residence on Census Day (May 16, 2006), as he or she did one year before (May 16, 2005).

Estimates of internal migration may be less accurate for small geographic areas, areas with a place name that is duplicated elsewhere, and for some census subdivisions (CSDs) where residents may have provided the name of the census metropolitan area or census agglomeration instead of the specific name of the component CSD from which they migrated.

To improve the accuracy of the 2006 Census data, postal codes are used to pinpoint the exact CSD of the previous residence.

For additional information, please refer to the [2006 Census Dictionary](#), Catalogue number 92-566-XWE or 92-566-XPE.

48. Mobility status - Place of residence 5 years ago - 20 % sample data

Information indicating whether the person lived in the same residence on Census Day (May 16, 2006), as he or she did five years before (May 16, 2001).

Estimates of internal migration may be less accurate for small geographic areas, areas with a place name that is duplicated elsewhere, and for some census subdivisions (CSDs) where residents may have provided the name of the census metropolitan area or census agglomeration instead of the specific name of the component CSD from which they migrated.

To improve the accuracy of the 2006 Census data, postal codes are used to pinpoint the exact CSD of the previous residence.

For additional information, please refer to the [2006 Census Dictionary](#), Catalogue number 92-566-XWE or 92-566-XPE.

Symbols:

^A adjusted figure due to boundary change

Users wishing to compare 2006 Census data with those of other censuses should then take into account that the boundaries of geographic areas may change from one census to another. In order to facilitate comparison, the 2001 Census counts are adjusted, as needed, to take into account boundary changes between the 2001 and 2006 censuses. The 2001 counts that were adjusted are identified by the letter 'A'. The letter 'A' may also refer to corrections to the 2001 counts; however, most of these are the result of boundary changes. This symbol is also used to identify areas that have been created since 2001, such as newly incorporated municipalities (census subdivisions).

^E use with caution

After the release of the 2001 or 2006 Census population and dwelling counts, errors are occasionally uncovered in the data. It is not possible to make changes to the 2001 or 2006 Census data presented in these tables.

Refer to the [2001 population and dwelling count amendments](#) or the [2006 population and dwelling count amendments](#) for further information.

x area and data suppression

In addition to random rounding, area and data suppression has been adopted to further protect the confidentiality of individual respondents' personal information.

Area and data suppression results in the deletion of all information for geographic areas with populations below a specified size. For example, areas with a population of less than 40 persons are suppressed. If the community searched has a population of less than 40 persons, only the total population counts will be available.

Whenever income data are shown, those areas with populations below 250 persons, or where the number of private households is less than 40, income data are suppressed. If a community searched has less than 250 persons, or if the number of private households is less than 40, the income data will not be available. All suppressed cells and associated averages, medians and standard errors of average income have been replaced with zeros. In all cases, suppressed data are included in the appropriate higher-level aggregate subtotals and totals.

Persons living on Indian reserves and Indian settlements who were enumerated with the 2006 Census Form 2D questionnaire were not asked the questions on citizenship and immigration. Consequently, data are suppressed for Indian reserves and Indian settlements at the census subdivision level. These data are, however, included in the totals for larger geographic areas such as provinces and territories.

To view the extent to which data are suppressed, see '[suppression criteria](#)'.

† excludes census data for one or more incompletely enumerated Indian reserves or Indian settlements

Excludes census data for one or more incompletely enumerated Indian reserves or Indian settlements (For further information, see the '[Notes](#)'.)

†† incompletely enumerated Indian Reserve or Indian settlement (For further information, see the '[Notes](#)'.)

Due to incompletely enumerated Indian reserves and Indian settlements, data are not available for either the 2006 Census, the 2001 Census or for both the 2001 and 2006 censuses.

Refer to a complete list of these [geographic areas](#).

... not applicable

The possible reasons for the use of the three dots (...) symbol are:

- A value that cannot be calculated such as a percentage change where the denominator is zero;
- A figure is deemed inappropriate for areas that had a population and/or dwelling count amendment in 2001.

Refer to the [2001 population and dwelling count amendments](#) for further information.
