CANSIM - Results

Table 105-0203^{1,2,3,8}

Pain or discomfort that affects activities, by age group and sex,
household population aged 12 and over, Canadian Community
Health Survey (CCHS 2.1 and 3.1), Canada, provinces and
territories, every 2 years

Survey or program details:

Canadian Community Health Survey - [3226](#)

Geography³=Nunavut

Age group	Sex	Pain or discomfort that affects activities ²	Characteristics ^{4,5,6,7}	2003	2005
Total, 12 years and over	Both sexes	Total population for the variable pain or discomfort that affects activities	Number of persons	13,743	14,948
			Percent	100.0	100.0
		No pain or discomfort that affects activities	Number of persons	12,672	12,967
			Percent	92.2	86.7
		Pain or discomfort, does not prevent activity	Number of persons	256 ^E	685 ^E
			Percent	1.9 ^E	4.6 ^E
		Pain or discomfort, prevents a few, some or most activities	Number of persons	786 ^E	1,231

Symbol legend:

E Use with caution

F Too unreliable to be published

Footnotes:

1. Source: Statistics Canada, Canadian Community Health Survey, 2003 and 2005
2. Population aged 12 and over who report usually having pain or discomfort which prevents or limits activities.
3. Canada and provincial estimates are based on sub-sample weights.
4. When comparing estimates, it is important to use confidence intervals to determine if differences between values are statistically significant. Confidence intervals describe sampling variability and give an indication of the precision of a given estimate. Bootstrapping techniques were used to produce the coefficient of variation (CV) and 95% confidence intervals (CIs).
5. Data with a coefficient of variation (CV) from 16.6% to 33.3% are identified as follows: (E) use with caution.
6. Data with a coefficient of variation (CV) greater than 33.3% were suppressed due to extreme sampling variability and are identified as follows: (F) too unreliable to be published.
7. The following standard symbols are used in this Statistics Canada table: (..) for figures not available for a specific reference period and (...) for figures not applicable.
8. The CANSIM table 105-0203 is an update of CANSIM table 105-0003.
