B24032. SEX BY INDUSTRY AND MEDIAN EARNINGS IN THE PAST 12 MONTHS (IN 2007 INFLATION-ADJUSTED DOLLARS) FOR THE CIVILIAN EMPLOYED POPULATION 16 YEARS AND OVER - Universe: CIVILIAN EMPLOYED POPULATION 16 YEARS AND OVER WITH EARNINGS

Data Set: 2007 American Community Survey 1-Year Estimates

Survey: American Community Survey

NOTE. Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

For information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

	Alaska	
	Estimate	Margin of Error
Male:	43,152	+/-1,686
Agriculture, forestry, fishing and hunting, and mining:	69,451	+/-7,843
Agriculture, forestry, fishing and hunting	40,603	+/-2,708
Mining	80,931	+/-9,546
Construction	40,630	+/-5,129
Manufacturing	25,324	+/-5,934
Wholesale trade	52,266	+/-13,308
Retail trade	29,378	+/-3,189
Transportation and warehousing, and utilities:	49,778	+/-2,971
Transportation and warehousing	48,470	+/-3,600
Utilities	61,657	+/-6,919
Information	50,920	+/-10,511
Finance and insurance, and real estate and rental and leasing:	46,533	+/-15,336
Finance and insurance	63,365	+/-7,116
Real estate and rental and leasing	40,776	+/-14,359
Professional, scientific, and management, and administrative and waste management services:	49,214	+/-5,111
Professional, scientific, and technical services	70,388	+/-7,984
Management of companies and enterprises	100,000+	***
Administrative and support and waste management services	31,811	+/-4,235
Educational services, and health care and social assistance:	47,069	+/-3,495
Educational services	47,093	+/-3,682
Health care and social assistance	47,023	+/-9,405
Arts, entertainment, and recreation, and accommodations and food services	18,430	+/-4,114
Arts, entertainment, and recreation	16,201	+/-10,418
Accommodation and food services	19,109	+/-3,583
Other services except public administration	36,388	+/-4,611
Public administration	56,572	+/-3,480
Female:	29,681	+/-1,068
Agriculture, forestry, fishing and hunting, and mining:	40,762	+/-13,602
Agriculture, forestry, fishing and hunting	27,390	+/-8,164
Mining	63,290	+/-36,424
Construction	36,912	+/-8,996
Manufacturing	23,701	+/-3,036
Wholesale trade	29,503	+/-3,951
Retail trade	19,480	+/-2,969

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Industry codes are 4-digit codes and are based on the North American Industry Classification System 2002. However, the Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

While the 2007 American Community Survey (ACS) data generally reflect the December 2006 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities. The 2007 Puerto Rico Community Survey (PRCS) data generally reflect the December 2005 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in PRCS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:
1. An '**' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
