

## Construction of dwelling houses by region, dwelling houses and other and year

	1998	1999	2000	2001	2002	2003	2004	2005	2006	2007	2008
Total Faroe Islands											
Dwelling houses	73	122	140	164	172	167	172	169	161	357	225
Other buildings	56	37	101	86	97	130	120	101	120	40	143

### Footnote:

No official registrations are available, but the records of the electricity company on the number of new connections to its circuit, provide a reasonably good indication of how many private residence are built annually. Other buildings include commercial and public buildings, apartment buildings, boat houses etc., and also expansions to existing installations.

year

1999

In 1999, the numbers for Streymoy include the number of connections in Eysturoy, Vágoy and Sandoy.
