

## Alaska

### S1902. Mean Income in the Past 12 Months (In 2008 Inflation-Adjusted Dollars)

Data Set: 2008 American Community Survey 1-Year Estimates

Survey: American Community Survey

NOTE: For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

Subject	Total	Margin of Error	Mean income (dollars)	Margin of Error
<b>HOUSEHOLD INCOME</b>				
<b>All households</b>	<b>237,607</b>	<b>+/-2,898</b>	<b>83,423</b>	<b>+/-2,557</b>
With earnings	90.0%	+/-0.8	76,632	+/-2,754
With interest, dividends, or net rental income	46.3%	+/-1.4	8,431	+/-968
With Social Security income	17.2%	+/-0.8	14,504	+/-616
With Supplemental Security Income (SSI)	2.8%	+/-0.5	7,363	+/-869
With cash public assistance income	6.1%	+/-0.7	3,536	+/-328
With retirement income	16.9%	+/-1.0	26,633	+/-1,464
<b>FAMILY INCOME BY NUMBER OF WORKERS IN FAMILY</b>				
<b>All families</b>	<b>157,273</b>	<b>+/-3,920</b>	<b>94,041</b>	<b>+/-3,398</b>
No workers	7.0%	+/-0.9	48,960	+/-5,283
1 worker	30.7%	+/-1.8	68,459	+/-4,814
2 workers, husband and wife worked	39.3%	+/-1.9	115,369	+/-7,944
2 workers, other	9.9%	+/-1.1	80,213	+/-5,324
3 or more workers, husband and wife worked	10.7%	+/-1.0	127,007	+/-5,556
3 or more workers, other	2.4%	+/-0.6	112,365	+/-11,891
<b>PER CAPITA INCOME BY RACE AND HISPANIC OR LATINO ORIGIN</b>				
<b>Total population</b>	<b>686,293</b>	<b>*****</b>	<b>31,175</b>	<b>+/-881</b>
One race--				
White	69.1%	+/-0.4	36,756	+/-1,214
Black or African American	3.6%	+/-0.5	24,121	+/-3,336
American Indian and Alaska Native	12.7%	+/-0.5	16,769	+/-964
Asian	4.6%	+/-0.3	22,098	+/-2,051
Native Hawaiian and Other Pacific Islander	0.5%	+/-0.1	18,074	+/-5,740
Some other race	1.2%	+/-0.3	26,063	+/-8,119
Two or more races	8.1%	+/-0.6	16,226	+/-1,890
Hispanic or Latino origin (of any race)				
	6.2%	+/-0.2	24,897	+/-4,407
White alone, not Hispanic or Latino	65.6%	+/-0.1	37,244	+/-1,186
<b>PERCENT IMPUTED</b>				
Household income in the past 12 months	22.1%	(X)	(X)	(X)
Family income in the past 12 months	22.9%	(X)	(X)	(X)
Individual income in the past 12 months	17.0%	(X)	(X)	(X)

Source: U.S. Census Bureau, 2008 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

#### Notes:

-While the 2008 American Community Survey (ACS) data generally reflect the November 2007 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities. The 2008 Puerto Rico Community Survey (PRCS) data generally reflect the November 2007 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in PRCS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

-Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available. Selected earnings and income data are not available for certain geographic areas due to problems with group quarters data collection and imputation. See the [ACS User Notes](#) for details.
