

B18102. SEX BY AGE BY HEARING DIFFICULTY - Universe: CIVILIAN NONINSTITUTIONALIZED POPULATION

Data Set: [2008 American Community Survey 1-Year Estimates](#)

Survey: American Community Survey

NOTE: Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the [official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties](#).

For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

View the [collapsed version of this table](#). Geographies missing from this table are listed below the table.

Alaska		
	Estimate	Margin of Error
Total:	659,084	+/-2,654
Male:	334,591	+/-2,757
Under 5 years:	27,756	+/-1,204
With a hearing difficulty	136	+/-150
No hearing difficulty	27,620	+/-1,201
5 to 17 years:	65,511	+/-1,564
With a hearing difficulty	265	+/-194
No hearing difficulty	65,246	+/-1,585
18 to 34 years:	84,325	+/-3,055
With a hearing difficulty	1,404	+/-739
No hearing difficulty	82,921	+/-3,131
35 to 64 years:	133,862	+/-2,532
With a hearing difficulty	10,828	+/-1,732
No hearing difficulty	123,034	+/-2,910
65 to 74 years:	15,814	+/-715
With a hearing difficulty	3,355	+/-646
No hearing difficulty	12,459	+/-857
75 years and over:	7,323	+/-667
With a hearing difficulty	3,710	+/-672
No hearing difficulty	3,613	+/-592
Female:	324,493	+/-2,029
Under 5 years:	23,868	+/-1,013
With a hearing difficulty	31	+/-36
No hearing difficulty	23,837	+/-1,004
5 to 17 years:	63,296	+/-1,358
With a hearing difficulty	349	+/-290
No hearing difficulty	62,947	+/-1,435
18 to 34 years:	78,834	+/-1,426
With a hearing difficulty	744	+/-485
No hearing difficulty	78,090	+/-1,413
35 to 64 years:	133,917	+/-1,602
With a hearing difficulty	4,003	+/-1,021
No hearing difficulty	129,914	+/-1,716
65 to 74 years:	15,146	+/-916
With a hearing difficulty	1,825	+/-665
No hearing difficulty	13,321	+/-925
75 years and over:	9,432	+/-800
With a hearing difficulty	2,516	+/-866
No hearing difficulty	6,916	+/-615

Source: U.S. Census Bureau, 2008 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Accordingly, comparisons of disability data from 2008 or later with data from prior years are not recommended. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the [Evaluation Report Covering Disability](#).

While the 2008 American Community Survey (ACS) data generally reflect the November 2007 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities. The 2008 Puerto Rico Community Survey (PRCS) data generally reflect the November 2007 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in PRCS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An *** entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An **** entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An ***** entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
